

REMARKS

Enclosed herewith is one (1) replacement formal drawing sheet. An inadvertent error was made on drawing sheet number 6 of 12 (Fig. 6A). The water supply channel (114) was inverted in the originally submitted figure. This Amendment corrects the defect in the drawing and brings the drawing into correspondence with the specification. This correction does not add any new matter to the application.

The applicant believes no fees are due with respect to this filing. However, should any such fees or petitions be required, please consider this a request therefor and authorization to charge Deposit Account No. 04-1415 as necessary.

If there are any questions, please contact the undersigned attorney.

Dated: 7 OCTOBER 2014.

Respectfully submitted,
